The American Indians had hordes of them when white men first set foot on this continent, and they are found in the mounds where they were buried with the bodies of the honored members of their tribes. Where do pearls come from and how are they formed The pearl oyster, *Meleagrina*, furnishes most of the finer pearls which come from the sea. These shells are found in the warm seas of many parts of the world; the Persian Gulf, Ceylon, Borneo, The Phillipine Islands, The Malay Islands, Panama, and the West Indies.
