Stylus Publishing, United States, 2007. Paperback. Book Condition: New. 223 x 150 mm. Language: English . Brand New Book. Non full-time faculty whether adjunct, part-time or contingent has become the lifeline of a vast majority of colleges and universities. They teach many of the foundation and core courses taken by first- and second-year students, teach professional courses in which their own life experiences are invaluable, and step in at short notice to fill-in for regular faculty engaged in research or away on sabbaticals.A survey of over 4,000 institutions conducted by the US Department of Education reveals that such faculty are being hired at a much higher rate than their full-time counterparts--whether in response to increased enrollments, reduced budgets, or changing administrative strategies.The increasing presence of such faculty on campus can conflict with today s demands for accountability and the pursuit of institutional mission. This book provides academic administrators and faculty developers with proactive, practical and results-producing approaches that can help transform fragmented faculties into integrated and cohesive teaching and scholarly communities.In an easy-to-follow format, this book constitutes a resource of thoughtful and pragmatic strategies to ensure quality and satisfaction both on the part of the institution and the adjuncts. Topics are presented in a thematic sequence that allows decision-makers to focus on their priority areas. The author offers guidance for systematic planning and implementation.The contents are focused on connecting non full-time faculty to core institutional functions and structures: Connection #1--to the institution; Connection #2--to the department; Connection #3--to teaching; Connection #4--to Students; and Connection #5--to scholarship.Originally announced as Connecting Adjunct Faculty to the Academic Institution.
