ARE Press, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book. Recognised seer, Edgar Cayce, explains the origin and destiny of mind and its amazing potential as he shows us how to expand our consciousness beyond self and explains the influential mind-body connection that means so much to our health: physically, emotionally and mentally. In this fascinating book, Cayce illustrates how thoughts are things that may become crimes or miracles in our lives. He explains how by changing our thinking patterns, we can change our life for the better. He gives a unique view into our mind at sleep - describing the influences motivating our dreams and visions and showing us how to better interpret them. He clarifies why the dreaming mind is so much more important to us than we realise. In one special chapter he explains how our minds are our builder, capable of taking us anywhere we want to go - as the old saying goes: as we think, so we become. He, also, addresses the need to move away from a too self-centred consciousness, opening up to a larger consciousness with powerful intuition and precognition, giving us more access to ideas and wisdom. And lastly, Cayce takes us to the wondrous metaphysical realms of God-consciousness and Cosmic-consciousness. He compares our human minds with the Infinite Mind, and explains how the two may know each other and work together to solve all of life's problems.
