Reviews

This sort of publication is almost everything and taught me to hunting forward and much more. Yes, it is actually play, continue to an amazing and interesting literature. I am pleased to tell you that this is basically the best book we have read through inside my individual life and could be he finest book for ever.

Paperback. Book Condition: New. Not Signed; On 8 March 2014, Malaysia Airlines Flight 370 took off from Kuala Lumpur International Airport bound for Beijing. Less than an hour after take-off, somewhere over the South China Sea the plane simply vanished. One eyewitness saw a burning object crash into the sea. But confusing radar signals traced tracked an aircraft taking an erratic course across the Malaysian peninsula, then on to the Andaman Sea. Did it crash there? Or did it fly on to land safely in disputed lands of Central Asia, or the top secret CIA 'black site' on Diego Garcia? Data from the Rolls Royce engines tracked by Inmarsat was said to indicate that it might have ditched in the furthest reaches of the South Indian Ocean. We know more about the surface of the moon than the bottom of the sea there. And the weather and currents are so bad, it may never be found. Convenient? Two years later, the Australians are still searching - at the cost of billions - and have found nothing. But was the search in such a remote place part of a cover-up to distract the world's attention because the US Navy had, in fact, shot the plane down? Since the invention of radio, radar, satellite navigation and the internet, the world has become a smaller place. The answer must be out there. Or, perhaps, hidden within the pages of the secret files. book.
