

A Treatise on Electricity and Magnetism Volume 1 (Paperback)

Filesize: 2.24 MB

Reviews

It in a of the best book. Yes, it can be perform, nevertheless an amazing and interesting literature. You may like the way the article writer publish this ebook.

(Wava Hettinger)

To get **A Treatise on Electricity and Magnetism Volume 1 (Paperback)** PDF, please access the hyperlink listed below and download the ebook or gain access to additional information which are highly relevant to A TREATISE ON ELECTRICITY AND MAGNETISM VOLUME 1 (PAPERBACK) ebook.

Theclassics.us, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1892 edition. Excerpt: .functions of the auxiliary angles, they will be periodic functions of the quantities $a, \sqrt{3}, y$. the periods of x and A_3 are $4.F(k)$, and that of X_2 is $2F$). Particular Solutions. 150. If V is a linear function of $a, \sqrt{3}$, or y , the equation is satisfied. Hence we may deduce from the equation the distribution of electricity on any two confocal surfaces of the same family maintained at given potentials, and the potential at any point between them. The Hyperboloids of Two Sheets. When o is constant the corresponding surface is a hyperboloid of two sheets. Let us make the sign of a the same as that of x in the sheet under consideration. We shall thus be able to study one of these sheets at a time. Let a_1, a_2 be the values of a corresponding to two single sheets, whether of different hyperboloids or of the same one, and let V, T , be the potentials at which they are maintained. Then, if we make $\phi = a, -a_2 T f + a(Kj \text{ al-Q2}$ the conditions will be satisfied at the two surfaces and throughout the space between them. If we make V constant and equal to in the space beyond the surface a_1 and constant and equal to in the space beyond the surface a_2 , we shall have obtained the complete solution of this particular case. (18) The resultant force at any point of either sheet is, $dV \text{ dVda} . Ri = -r = J-j$ (19 $1 a_8 j \text{ da dsx v} \dots$
